DO NOT MAKE WAR ON THE STOMACH.—If you are bilious, dyspeptic and constipated, do not make war on the stomach by excessively swallowing blue pills, strong cathartics and powerful astringents. A procedure damages digestion and weakens the bowels, leaving stomach, liver and intestines, after the immediate effect, in a condition of greater disorder than before. That complete relief which remedies of the above description signal-fail to afford is obtained by using **Stetter's Stomach Bitters.** And for the most of reasons. Biliousness is the result of inactivity of the liver, dyspepsia weakness of the digestive organs, and constipation is produced by the above causes operating together. The Bitters, being a powerful stomachic, overcome indigestion by stimulating the secretion of gastric juice, relieve biliousness by promoting greater activity of the liver, and thus enable the bowels to act with renewed regularity. J231371.

Gen. C. Quitt says this is the way to remove stumps: Have one or more sheet iron chimneys, some four or five feet high. Set fire to the stump and place the chimney over it, so as to give the requisite draught at the bottom. It will draw like a stove, the stump will soon be consumed. With several such chimneys, of different sizes, the removal of stumps may be accomplished at merely nominal labor and expense.

A man whose appearance indicated that he was staggering from the excessive weight of a brick in his hat, being asked if he was a Son of Temperance, replied: "He-no—no relation—not even an acquaintance."

The topographical survey of Great Britain has been going on since 1784, and will require about ten years for its completion. Its cost thus far has been about \$21,000,000.

The symptoms of Liver Complaint are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general constive, and sometimes alternating with lax. The head is troubled with pain, and dull, heavy sensation, considerable loss of memory, accompanied with painful sensation of having left undone something which ought to have been done. Often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease, and at other times, very few of them; but the Liver is generally the organ most involved.
